Turks Inflict Heavy Losses
on Enemy on Gallipoli
Peninsula.

LONDON, Aug. 30. (AP)—While the reports from the front are still showing the German offensive in the west, the Allies are still pressing the offensive in the east. The German offensive in the west has been checked, and the Allies are now pressing the offensive in the east. The German offensive in the west has been checked, and the Allies are now pressing the offensive in the east.

MAN WHO SUCCEEDS TO BERTH FORMERLY HELD BY SECRETARY OF STATE

FRANK L. POLK

WASHINGTON, Aug. 30.—Frank L. Polk, corporation counsel for New York city who has recently been chosen by President Wilson for appointment as assistant secretary of state, succeeded former Secretary Bryan.

JITNEY CONTRACTOR WILL FINISH WORK

New Building Superintendent
Condemns All New
Structures.

FATHER MACK BACK

H. O. McClure Again on
Job at Last Night's Ses-
sion of Board.

WITH President H. O. McClure, "father of the jitney school," presiding, following his return from a month's vacation, the board of education last night received the report of their new superintendent of construction, L. J. P. Rooney, on the five unit schools that have caused so much scandal of late, and the building committee decided to meet with Rooney and the contractor today.

Rooney's report was merely a verification of the report recently submitted to the board by a committee of builders and architects, in which every one of the five unit schools was condemned as a failure.

Star Chamber Session.
Prior to the special board meeting the building committee held an executive session and received Rooney's report. After some discussion they

MAYTORENA TO QUIT AS SONORA GOVERNOR

NOGALES, Arizona, Aug. 30.—Jose Maytorena, villa chief in Sonora, will relinquish the office of governor of Sonora September 14, according to an announcement from his office in Nogales, Sonora, today.

It was the "coldest thirteen" of August in the history of the city, as far back as the government weather bureau records run, and even farther back, according to the "coldest thirteen" of August in the history of the city.

Gas Stoves were hooked up in many homes. Blankets were in universal use.

The Palm Beach club held another indignation meeting and decided to disband. They have lost all hope.

Predictions that "September will be worse" are in order.

FORMATION OF BIG LABOR DAY PARADE

Police, Band and Queen's
Float to Be at Head of
Parade.

ONE WEEK DISTANT

Various Crafts Will All Be
in Line on Next Mon-
day Morning.

Here is the formation of the Labor day parade, which will be held the morning of Monday, September 2, and which is expected to be the largest of its kind ever held in this city. The parade will be held on the main highway, and will consist of a float representing the Tulsa Trades and Labor council, a float representing the Tulsa Trades and Labor council, a float representing the Tulsa Trades and Labor council, and a float representing the Tulsa Trades and Labor council.

Much Music.
The grand march will be B. C. Street. In the formation of the parade, he has arranged the various floats in a division together. This, it is thought, will eliminate the confusion of previous Labor day parades.

NEW YORK, Aug. 30.—Broken windows on Long Island and in Westchester county comprise the total damage done by the firing of the huge twelve-inch mortars at Fort Totten, the first target practice indulged in at the fort in seven years, although theoretically 39 invading battleships were sent beneath the waves.

BIG STEAMSHIP CO. IS CONTEMPLATED

Contracts Signed for a
Trans-Pacific Concern;
\$5,000,000 Involved.

SAN FRANCISCO, Aug. 30.—Con-
tracts for the financing of a \$50,000,000 Chinese-American trans-Pacific steamship company have been signed by American and Chinese capitalists who are now negotiating for the purchase of ships, according to an announcement made here today by Dr. V. K. Wellington Koo, China's first minister to Mexico, who arrived today on the steamer Persia, which Doctor Koo, although he declined to name the American bankers behind the new company, said that practically all of the great banks of China were its backers.

Doctor Koo said that he had only meager details of the plans of the line but was told that its steamers would fly the Chinese flag. Difficulties in the purchase of ships at this time, he said, were delaying the actual inauguration of operations.

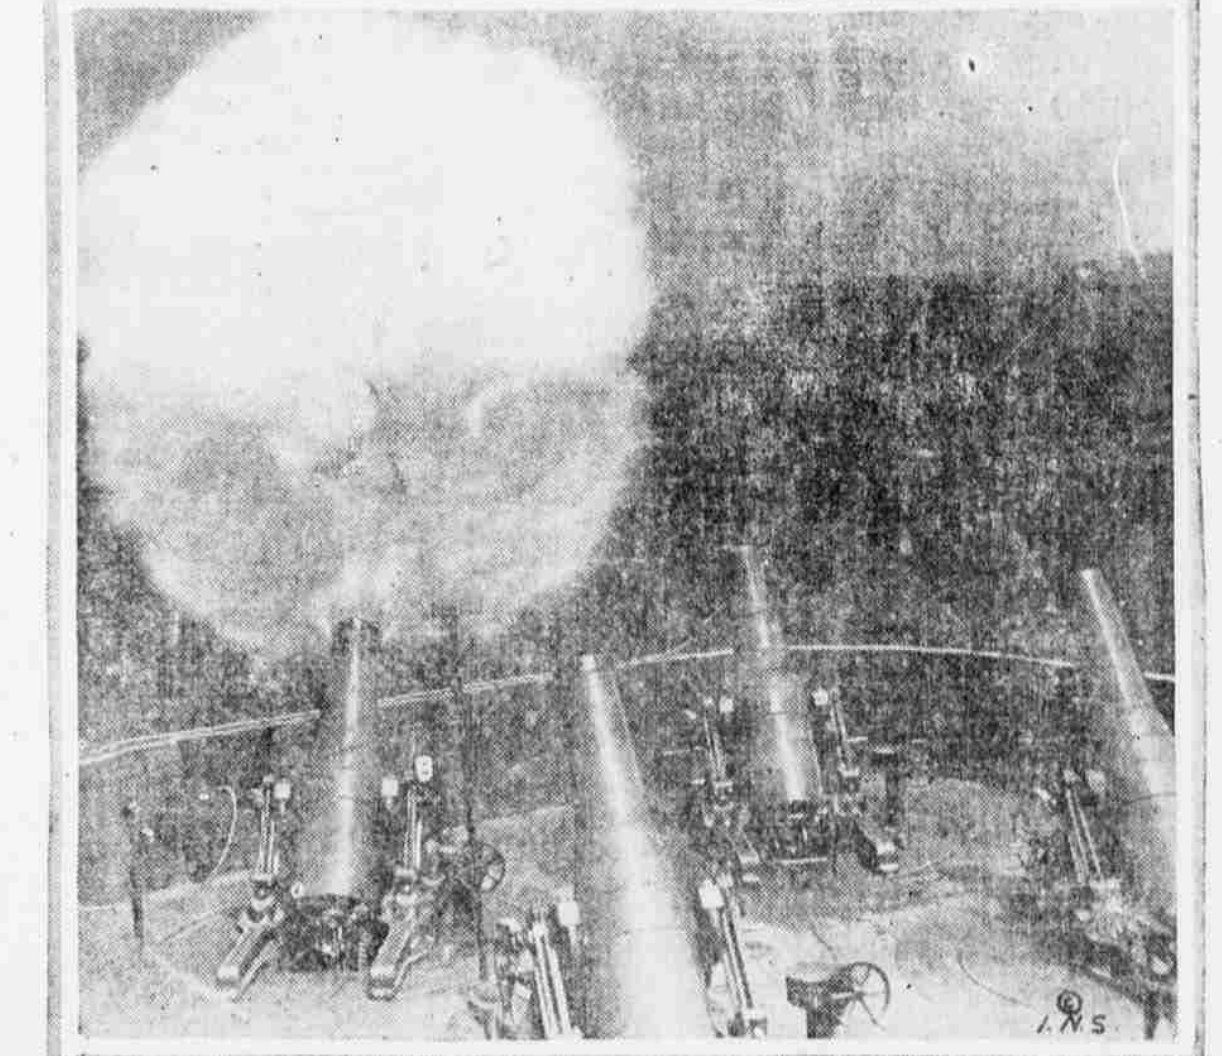

"It is the first fruit of the visit of our industrial commission to this country several months ago," said Doctor Koo.

The new Chinese minister to Mexico who is only 23 years old and boyish in appearance, inquired what impression was made in American by the report that Dr. Frank J. Goodnow, adviser to Yuan Shi Kai, had advised the president of China to promulgate a constitutional monarchy in China.

"Doctor Goodnow might have made such suggestions," he said, "but they were only suggestions. If they were made, from the viewpoint of a scientist after a study of conditions in China, President Yuan has said repeatedly that he had no intention of becoming a monarch."

"China's resources are open to American capital with little chance of opposition from any foreign government."

TO HANG NEGRO FOR MURDERING WOMAN

MURPHYSBORO, Ill., Aug. 30.—Joe Delaney, the negro who killed his benefactress, Mrs. J. H. Martin, in her home July 29 was indicted here today, pleaded guilty and was sentenced to death. The entire proceeding occupied less than six hours.

Delaney was sentenced to be hanged October 16.

Crowds thronged the courtroom today and hundreds of persons were gathered on the streets. There were murmurings of possible mob violence but the presence of three companies of the Illinois national guard served to prevent violence.

STILL COUNTING VOTES.
Owing to the unexpected number of votes recorded in the World's contest for \$200 in gold, the count was not completed last night. The clerks worked until a late hour, but when they finished for the day a great pile of votes still remained uncounted. It is hoped that the count will be completed today, and is possible the result will be announced in Wednesday morning's World.

COUNCIL ORDER OF ENGLAND IS TO BE MODIFIED

American Importers Will
Now Get Goods From
Germany.

DETAILS NOT PUBLIC

Proof of Contracts May Be
Made at Washington.
Says Rice.

WASHINGTON, Aug. 30.—Assurances that Great Britain will relax the enforcement of her order in council so as to permit shipments from neutral ports of German and Austrian goods contracted for by American prior to the effective date of the order was given the state department today by Sir Cecil Spring Rice, the British ambassador. The ambassador explained that arrangements would be made for accepting proof of contracts at the embassy here instead of requiring its production in London. Details of the plan will be given later in a memorandum from the London foreign office. Officials are hopeful that it will make possible the release of millions of dollars' worth of American-owned goods of German or Austrian origin accumulated at neutral European ports, particularly Rotterdam.

Some Goods Permitted.
The foreign trade advisers of the state department have been making extensive informal representations recently in behalf of American importers generally and have complained that while their efforts to secure the release of goods had been in vain, private imports in Great Britain were getting permits for certain shipments. Prior to June 15 the British government, through informal negotiations with the foreign trade advisers, had agreed not to interfere with shipments from neutral ports on the production of proof that the goods had actually been paid for by Americans before last March, when the order in council went into effect. After the British ambassador called at the department a cablegram arrived from Consul General Skinner at London announcing that some of the restrictions on neutral commerce were to be removed.

SUGGESTS TUITION AT STATE SCHOOLS

BERKELEY, Cal., Aug. 30.—Good state tuition fees instead of free education at state universities were suggested rather than advocated by Dr. Benjamin Ide Wheeler, president of the University of California, in an address before the American Educational Association of the National Association of State Universities. Considering the comparatively few who ever get to go to a university, he said, it ought to be fair to taxpayers and everyone concerned to a large part of a third of the cost of such education. That at any rate would do away with a sentiment which he said existed among some students that they did the state a favor by coming.

High Society Woman Hangs From Gas Pipe

Special to The World.
MUSKOGEE, Aug. 30.—Mrs. Mauderson Peyton, prominent society leader, was found dead in the bathroom of her home here this afternoon. She had hanged herself by knotting a rope around her neck, throwing it over a gas pipe and then drawing her feet from the floor.

The tragedy leaves two girls, Randolph Peyton and Virginia Peyton, both well known in younger social circles as orphans, for two years ago their father committed suicide by cutting his throat with a razor while in the police patrol at Dallas, Texas. He had been arrested on a warrant charging that he misappropriated many thousands of dollars of funds which had come into his hands during the course of his business, which was that of a collection attorney.

Both Mr. and Mrs. Peyton came from socially prominent families in Virginia. Until shortly before his death Peyton was ranked as one of the leading attorneys of the city, his business being so large as to warrant a large corps of assistants.

Since the death of her husband, Mrs. Peyton has not been in good health, and physicians stated the woman's mind had become temporarily unbalanced.

GERMANS APPLAUD SPEECH FOR PEACE

ST. PAUL, Minn., Aug. 30.—A plea for world peace that brought applause from the one hundred former soldiers present was a feature of the opening business session today of the German Kriegerbund of North America, which is holding its biennial convention here.

The speaker was Doctor Herman Gerhard of Chicago, member of a committee of German-Americans who is trying to create sentiment for world peace.

An embargo on shipments of ammunition from this country would do much to end the European conflict, Doctor Gerhard said.
